Resources for Professional Practice, Year 1

This document contains the Descriptions of Practice, and a set of descriptive texts, the element Descriptions, designed to accompany the California Standards for the Teaching Profession (CSTP). Both the standards and scales were developed to facilitate the induction of beginning teachers into their professional roles and responsibilities. The standards provide a common language that illustrates the score and complexity of teaching, while the Descriptions of Practice (DOP) are indicators of typical teaching at four levels of Professional accomplishment in relation to the standards. Neither the standards nor the DOP are set forth as regulation to control the actions of specific teachers, but rather to guide teachers as they define and develop their practice.
